

Rabbit antibody to REEP4 (210-255)

Code	OSR00385W
ID Tag	Rb2286-150114-WS
Unit_size	100 µl
Immunogen	A synthetic peptide from aa region 210-255 of human REEP4 conjugated to blue carrier protein was used as the antigen. The peptide shares 89% identity with mouse sequence and 95% with rat's.
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Applications	IHC, WB (confirmed by recombinant protein). A dilution of 1: 300 to 1: 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for REEP4
Spes_X_react	Human. Other species not yet tested but expected to work in rat and mouse.
Format	Lyophilised
Reconstitution	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Preservatives	
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry_Date	12 months after reconstitution
Limitation	For research use only
