

Rabbit antibody to cFos

Code	OSR00004W
ID Tag	Rb4267-10102023-WS
Unit_size	100 ul
Immunogen	A synthetic peptide from human cFos protein conjugated to blue carrier protein has been used as the antigen. The peptide is homologous in many other species including rat and mouse.
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal antibody
Applications	IHC, WB. Use at a dilution of 1 : 1000 to 1 : 2000. The optimal dilution should be determined by the end user. Not yet tested in other applications. For WB, the lysate must be prepared in G1 lysing buffer which is: Ripa lysing buffer containing 1% Triton X-100; 1% SDS; 1% SDC.
Specificity	Specific for cFos.
Spcs_X_react	Rat, mouse, marmoset. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 100 ul of sterile water. Centrifuge to remove any insoluble material.
Preservatives	
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry_Date	12 months after purchase
Limitation	For research use only

All products are intended for in vitro research purpose only.
