

Rabbit antibody to GBB1

Code	OSG00020W
ID Tag	Rb510-290608-WS
Unit size	100 µl
Immunogen	A synthetic peptide from the internal region of human GBB1 (Transducin beta chain 1, GNB1, Guanine nucleotide binding protein subunit beta-1) conjugated to an immunogenic carrier protein was used as the antigen. The peptide is homologous in many species including rat, mouse, zebra fish and xenopus.
Conjugate	Unconjugated antibody
Also known	Transducin beta chain 1, GNB1, Guanine nucleotide binding protein subunit beta-1
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC, WB. A dilution of 1: 300 to 1: 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for GBB1.
Spcs X-react.	Human, rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only
