

Rabbit antibody to phospho S633 SCNN1B

Code	OSS00078W
ID Tag	Rb613-170808-WS
Unit size	100 ul
Immunogen	A synthetic peptide to phospho S633 of rat amiloride-sensitive sodium channel subunit beta (SCNN1B, SCNEB) conjugated to blue carrier protein was used as the antigen. The antigen is homologous with the corresponding sequence in mouse.
Conjugate	Unconjugated antibody
Also known	Beta-ENaC, Nonvoltage-gated sodium channel 1 subunit beta, SCNEB, Beta-NaCH, ENaCB, ENaCbeta
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC. A dilution of 1 : 300 to 1 : 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications. Note that this antibody may also recognise the unphosphorylated form.
Specificity	Specific for SCNN1B.
Spcs X-react.	Rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 100 ul of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only
