

Sheep antibody to phospho S473 of AKT

Code OSA00060W

ID Tag Sh111-060908-WS

Unit size 100 ul

Immunogen A synthetic peptide from the phospho S473 of mouse AKT (RAC-alpha serine/threonine-protein

kinase, PKB, RAC) conjugated to blue carrier protein was used as the antigen. The antigen is

homologous in rat, human and chicken AKT1.

Conjugate Unconjugated antibody

Also known RAC-alpha serine/threonine-protein kinase, RAC-PK-alpha, Protein kinase B, PKB, C-AKT, PKB,

RAC, AKT1

Host Sheep

Purity Whole serum Clonality Polyclonal

Isotype Polyclonal, whole serum

Applications IHC, WB. A dilution of 1: 300 to 1: 2000 is recommended. The optimal dilution should be

determined by the end user. This antibody is also very likely to recognise the unphosphorylated

form.

Specificity Specific for AKT1, AKT2, AKT3.

Spcs X-react. Mouse, rat, human. Other species not yet tested.

Format Lyophilised

Reconstitution Reconstitute in 100 ul of sterile water. Centrifuge to remove any insoluble material.

Storage Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and

refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an

additional stability. Avoid freeze and thaw cycles.

Expiry Date 12 months after reconstitution

Shipping This item will be shipped to you at ambient temperature in a lyophilised form.

Limitation For research use only
