

Rabbit antibody to phospho Y820 TrkC

| | |
|-----------------------|---|
| Code | OST00234G |
| ID Tag | Rb679-060908-G |
| Unit size | 500 ug |
| Immunogen | A synthetic peptide to phospho Y820 of human TrkC conjugated to blue carrier protein was used as the antigen. The antigen is homologous in rat and mouse. The peptide is homologous in rat and mouse. |
| Conjugate | Unconjugated antibody |
| Also known | Neurotrophic tyrosine kinase receptor type 3, TrkC tyrosine kinase, GP145-TrkC, Trk-C, NT-3 growth factor receptor, NTRK3 |
| Host | NZ white rabbit |
| Purity | IgG |
| Clonality | Polyclonal |
| Isotype | Polyclonal, IgG |
| Applications | IHC, WB. A concentration of 10-50 ug/ml is recommended. The optimal concentration should be determined by the end user. Not yet tested in other applications. This antibody may also recognise the unphosphorylated form. |
| Specificity | Specific for TrkC. |
| Spcs X-react. | Rat, mouse, human. Other species not yet tested. |
| Format | Lyophilised |
| Reconstitution | Reconstitute in 500 ul of sterile water. Centrifuge to remove any insoluble material. |
| Storage | Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles. |
| Expiry Date | 12 months after reconstitution |
| Shipping | This item will be shipped to you at ambient temperature in a lyophilised form. |
| Limitation | For research use only |
