

Rabbit antibody to HGS

Code OSH00025W

ID Tag Rb465-150608-WS

Unit size 150 μl

Immunogen A synthetic peptide from the c-terminal region of mouse HGS (Hepatocyte growth factor-regulated

tyrosine kinase substrate) conjugated to an immunogenic carrier protein was used as the antigen.

The peptide is homologous in human and rat.

Conjugate Unconjugated antibody

Also known Hepatocyte growth factor-regulated tyrosine kinase substrate, HRS

Host NZ white rabbit
Purity Whole serum
Clonality Polyclonal

Isotype Polyclonal, whole serum

Applications IHC, WB (confirmed by recombinant protein). A dilution of 1: 200 to 1: 2000 is recommended. The

optimal dilution should be determined by the end user. Not yet tested in other applications.

Specificity Specific for HGS.

Spcs X-react. Human, rat mouse. Other species not yet tested.

Format Lyophilised

Reconstitution Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.

Storage Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and

refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an

additional stability. Avoid freeze and thaw cycles.

Expiry Date 12 months after reconstitution

Shipping This item will be shipped to you at ambient temperature in a lyophilised form.

Limitation For research use only
