| <b>Unit size</b>      | 150 ul                                                                                                                                                                                                                                                |
| <b>Immunogen</b>      | MMR: attenuated measles virus (Schwarz strain); attenuated mumps virus (RIT 4385 strain, derived from the Jeryl Lynn strain); attenuated rubella virus (Wistar RA 27/3 strain).                                                                       |
| <b>Conjugate</b>      | Unconjugated antibody                                                                                                                                                                                                                                 |
| <b>Also known</b>     | MMR                                                                                                                                                                                                                                                   |
| <b>Host</b>           | NZ white rabbit                                                                                                                                                                                                                                       |
| <b>Purity</b>         | Whole serum                                                                                                                                                                                                                                           |
| <b>Clonality</b>      | Polyclonal                                                                                                                                                                                                                                            |
| <b>Isotype</b>        | Polyclonal, whole serum                                                                                                                                                                                                                               |
| <b>Applications</b>   | IHC, WB. A dilution of 1: 1000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.                                                                                                       |
| <b>Specificity</b>    | Attenuated MMR (Measles-mumps-rubella)                                                                                                                                                                                                                |
| <b>Format</b>         | Lyophilised                                                                                                                                                                                                                                           |
| <b>Reconstitution</b> | Reconstitute in 150 ul of sterile water. Centrifuge to remove any insoluble material.                                                                                                                                                                 |
| <b>Storage</b>        | Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and refrigerated at 2-8C for a shorter term.                                                                                                                   |
| <b>Expiry Date</b>    | 12 months after reconstitution                                                                                                                                                                                                                        |
| <b>Shipping</b>       | This item will be shipped to you at ambient temperature in a lyophilised form.                                                                                                                                                                        |
| <b>Limitation</b>     | For research use only                                                                                                                                                                                                                                 |
