

Rabbit antibody to DRAM (160-210)

Code	OSD00006W
ID Tag	Rb444-150608-WS
Unit size	150 µl
Immunogen	A synthetic peptide from aa region 160-210 of human DRAM conjugated to blue carrier protein has been used as the antigen. The antigen shares 85% identity with mouse's and rat's.
Conjugate	Unconjugated antibody
Also known	Damage-regulated autophagy modulator
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC, WB. Use at a dilution of 1 : 200 to 1 : 2000. The optimal dilution should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for DRAM.
Spcs X-react.	Human, rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 150 µl of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only

WB on PC12 cell lysate using Rabbit antibody to DRAM (OSA00052W) at 1 : 300 dilution. Pre-absorption of the antibody with the immunising peptide completely abolishes the detected band.
